

BIG BAG TUBULAR 4 LIFTING POINTS

The Tubular big bag has no vertical seams because it is realized with circular looms. For this reason it guarantees more protection from humidity or outflow of powders and granular materials.

KEY INDUSTRIES

Mining

Plastic

Chemicals

Food

Ecology

SAFE WORKING LOAD

+ From 500 kg up to 2000 kg

CERTIFICATIONS

+ UN Group II and II

+ ISO 22000

ACCESSORIES

+ Liners

+ Printing up to 4 sides/4 colours

+ Dustproof seams PP cordel or felt

+ Hygienic seams

+ Metal detection and extra cleaning

+ Ultrasonic cut

+ Document pockets

+ B-Lock, Velcro, Circular flap closing

SAFETY FACTOR

+ 5:1 Single Trip

+ 6:1 Standard Duty

FABRIC

+ Circular woven

+ Coated circular woven

+ Electrostatic dissipative fabric

+ Coloured fabric

SPECIAL OPTIONS

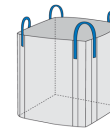

+ Fabric weight: 95-265 gr/m²

+ Minimum coating weight: 15 gr/m²

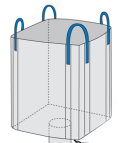

+ Fabric flat laying width: 140-210 cm

+ Maximum coating width: 225 cm
